**Elegance optional extras** Please call to discuss your requirements, for special or quantity orders

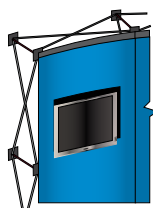

### Case to Table Skirt

Convert your case to an impressive display counter with timber or PVC lid and your graphics printed on the removable skirt.

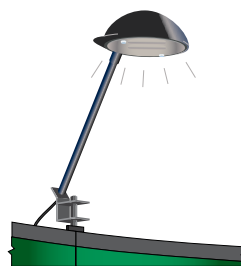

### Monitor display

Inset into your display, the shelf and window in your graphic panel neatly provide facility for multimedia displays.

### Display lights

Enhance your display with a pair of strong reliable quartz halogen lights.

### Further options

More options are available such as back panels for any system (displaying an outside curve), backlit headers, inset lightboxes, external flat or literature shelves. We can also make any combination of 300 or 350 frame configurations such as five or six panel systems, serpentine or gullwing shapes, extra tall or rising height walls, island three facet displays, or joiners to turn two displays into one.
